**Part I. Federal Section 5310 Program
ENHANCED MOBILITY OF SENIORS AND INDIVIDUALS
WITH DISABILITIES**

General Program Information

ELIGIBLE APPLICANTS

Non-profit agencies providing services to meet the specific needs of seniors and individuals with disabilities in Stark County, Ohio are eligible to apply. Any applicant that has been disbarred by any Federal agency will become ineligible.

ELIGIBLE PROJECTS

Section 5310 Program funds are available for Traditional Capital, and Other Capital and Operating expenses to support the provision of transportation programs and services to meet the specific needs of seniors and individuals with disabilities in Stark County, Ohio. The following sections provide further information on project eligibility for funding under Section 5310.

ELIGIBLE PROJECTS

Section 5310 Program funds are available for Traditional Capital, and Other Capital and Operating expenses to support the provision of transportation programs and services to meet the specific needs of seniors and individuals with disabilities in Stark County, Ohio. The following sections provide further information on project eligibility for funding under Section 5310.

Traditional Capital Projects

Traditional Capital projects are those that are planned, designed, and carried out to meet the specific needs of seniors and individuals with disabilities when public transportation is insufficient, unavailable, or inappropriate. SARTA requires that each vehicle is operated at a minimum of twenty (20) service hours per week; administrative expenses are not eligible.

Examples of eligible Traditional Capital projects shown below are intended to be illustrative, not exhaustive. Applicants are encouraged to develop innovative solutions to achieve program objectives.

1. Rolling stock and related activities for Section 5310 Program funded vehicles
 - a. Acquisition of expansion or replacement accessible buses or vans, and related procurement, testing, inspection, and acceptance costs
 - b. Vehicle rehabilitation or overhaul
 - c. Preventive maintenance
 - d. Radios and communication equipment
 - e. Vehicle wheelchair lifts, ramps, and securement devices
2. Support facilities and equipment for Section 5310 Program funded vehicles
 - a. Extended warranties that do not exceed the industry standard
 - b. Computer hardware and software to assist in scheduling
 - d. Dispatch systems
3. Support for mobility management and coordination programs among public transportation providers and other human service agencies providing transportation. Mobility management is an eligible capital cost. Mobility management techniques may enhance transportation access for populations beyond those served by one agency or organization within a community. For example, a nonprofit

agency could receive Section 5310 funding to support the administrative/scheduler costs of sharing services it provides to its own clientele with other seniors and/or individuals with disabilities and coordinate usage of vehicles with other nonprofits, but not the operating costs of service.

Mobility management is intended to build coordination among existing public transportation providers and other transportation service providers with the result of expanding the availability of service. Mobility management activities may include:

- a. The promotion, enhancement, and facilitation of access to transportation services, including the integration and coordination of services
- b. Support for short-term management activities to plan and implement coordinated services
- c. The support of state and local coordination policy bodies and councils
- d. The operation of transportation brokerages to coordinate providers, funding agencies, and passengers
- e. The provision of coordination services, including employer-oriented transportation management organizations and human service organizations' customer-oriented travel navigator systems and neighborhood travel coordination activities such as coordinating individualized travel training and trip planning activities for customers
- f. The development and operation of one-stop transportation traveler call centers to coordinate transportation information on all travel modes and to manage eligibility requirements and arrangements for customers among supporting programs

4. Capital activities (e.g., acquisition of rolling stock and related activities, acquisition of services, etc.) to support ADA-complementary paratransit service

Other Capital and Operating Projects

Other Capital and Operating projects include those public transportation projects that: i) exceed ADA requirements; ii) provide alternatives to public transportation that assist seniors and individuals with disabilities with transportation.

Administrative expenses necessary to support project activities are eligible expenses up to a maximum five (5) percent of the total project cost. Operating assistance for ADA complementary paratransit service is not an eligible expense. Also, transit passes or vouchers for use on existing or new fixed route or ADA complementary paratransit service are not eligible.

Examples of Other Capital and Operating expenses as shown below under each of the three broad project categories is intended to be illustrative, not exhaustive. Applicants are encouraged to develop innovative solutions to achieve program objectives.

1. Projects that Exceed ADA Requirements

- a. Expansion of paratransit service parameters beyond the three-fourths mile required by the ADA;
- b. Expansion of current hours of operation for ADA paratransit services that are beyond those provided on the fixed-route services;
- c. The incremental cost of providing same day service;
- d. The incremental cost (if any) of making door-to-door service available to all eligible ADA paratransit riders;
- e. Enhancement of the level of service by providing escorts or assisting riders through the door of their destination;
- f. Acquisition of vehicles and equipment designed to accommodate mobility aids that exceed the dimensions and weight ratings established for wheelchairs under ADA regulations (i.e., larger than 30" × 48" and/or weighing more than 600 pounds), such

as: the acquisition of lifts with a larger capacity; modifications to lifts with a 600-pound design load; and, the acquisition of heavier duty vehicles for demand-response and/or paratransit service in order to accommodate lifts with a heavier design load.

FEDERAL SHARE & LOCAL MATCHING REQUIREMENTS

The federal share of eligible Section 5310 traditional and other capital costs shall be in an amount equal up to 80 percent of the net cost of the activity. The federal share of the eligible operating costs may not exceed 50 percent of the net operating costs of the activity. The net cost of an activity (capital or operating) is the part of the project that cannot reasonably be financed from operating revenues.

The local share of eligible Section 5310 capital costs shall not be less than 20 percent of the net cost of the activity. The local share for eligible operating costs shall not be less than 50 percent of the net operating costs. The local share may be sourced from a variety of sources including:

- an undistributed cash surplus;
- a replacement or depreciation cash fund or reserve, and;
- a service agreement with a State or local service agency or private social service organization, or new capital. Some examples of these potential sources of local match include: State or local appropriations, dedicated tax revenues, private donations, revenue from service contracts, and net income generated from advertising and concessions;
- Income from contracted transportation services may be used either to reduce the net project cost (treated as revenue) or to provide local match for operating expenses. In either case, the cost of providing the contract service is included in the total project cost. No Federal program funds can be used as a source of local match for other FTA programs, even when used to contract for service. All sources and amounts of local match must be identified in the application.

GENERAL INFORMATION

Each agency is allowed to submit one application per project proposed for federal funding as follows:

- Section 5310 Traditional Capital projects; total applicant/subrecipient funding request may not exceed \$100,000;
- Section 5310 Other Capital & Operating projects; total applicant/subrecipient request may not exceed \$100,000.
 - Requests for equipment (e.g., computer systems, dispatching and tracking software, and telecommunication systems) that support the transportation program are limited to no more than \$60,000.

A minimum of 70 points per application score is required to be considered for funding. If the funding request is not fully awarded, applicant/agency may offer a reduced scope of work and associated budget or decline funding award.

1. Mark "ORIGINAL" on the cover of your application package containing the master copy of the required documentation with original signatures recorded in blue ink.

2. Submit the three (3) hard copies (one marked original) to the Stark County Regional Planning

Commission, ATTN Karl Lucas, 201 3rd St. NE, Canton OH, 44702 by March 31, 2021, 3:00 p.m. Applications can be hand delivered following accepted social distancing requirements or by other means.

Please contact Debbie Swickard for information regarding the Application Questions & Answer Conference Call on February 8, 2021 at 2:00 p.m.

3. Applications as delivered are to be complete and final. Amendments or supplements to the application will not be accepted after the due date. Application packages with incomplete and/or missing information (e.g., certifications, etc. and/or not signed by a duly authorized representative) will not be evaluated.

4. The application is available at:

<http://www.starkcountyohio.gov/transportation/programs/specialized-transportation/stark-county-mobility-coordination-committee> or <http://www.sartaonline.com/>.

5. Review these application instructions, guidelines, and evaluation criteria carefully to ensure a complete and competitive application that sufficiently address each of the required and applicable components.

PERFORMANCE MEASURES

FTA requires tracking and reporting of quantitative and qualitative information for Section 5310 funded projects. FTA has set minimum indicators for each eligible project category to capture relevant outputs, service levels and outcomes as described below.

1. Traditional Capital Projects

- a. Gaps in Service Filled - The provision of transportation options that would not otherwise be available for seniors and individuals with disabilities measured by the annual number of seniors and people with disabilities afforded mobility they would not have without program support as a result of the Traditional Capital Section 5310 project.
- b. Ridership - The actual or estimated number of rides measured by one-way passenger trips provided annually for seniors and individuals with disabilities as a result of the Traditional Section 5310 Capital project.
- c. Mileage - Total miles traveled to provide transportation for seniors and individuals with disabilities.

2. Other Capital and Operating Projects

- a. Increases or enhancements related to geographic coverage, service quality, and/or service times that impact availability of transportation services for seniors and individuals with disabilities as a result of Other Capital and/or Operating Section 5310 project.
- b. Additions or changes to physical infrastructure (e.g., transportation facilities, sidewalks, etc.), technology, and vehicles that impact availability of transportation services for seniors and individuals with disabilities as a result of Other Capital and/or Operating Section 5310 project.

- c. Actual or estimated annual number of rides measured by one-way passenger trips provided for seniors and individuals with disabilities as a result of Other Capital and/or Operating Section 5310 project.

SELECTION OF PROPOSALS FOR FUNDING AWARD RECOMMENDATIONS

Applications will be evaluated and ranked based on the final score provided by the Evaluation Panel. Scores will be based on the application project and its ability to fill unmet needs according to the *Updated Human Services-Public Transportation Plan for the Stark County Regional Transit Authority and the Stark County Area Transportation Study*. Funds will be allocated according to the ranking of projects to the maximum amount made available for the FY 2021 Solicitation for Proposals. Award recommendations may be limited to proposals that receive a final score of 70 or above (out of a maximum of 130) and subject to funds availability. If funds remain after recommending awards to those proposals scoring 70 points and above. The Stark County Mobility Coordination Committee and SARTA provide funding award recommendations to the Stark County Area Transportation Study for action that places projects on the Transportation Improvement Program before submission to the FTA.

II. VEHICLE USAGE

If you are purchasing multiple vehicles provide a separate worksheet for each vehicle showing the calculations for the following:

- a. Average estimated number of operating days per vehicle per year: _____
- b. Average estimated number of operating hours per vehicle per year: _____
- c. Average estimated mileage per vehicle per year: _____
- d. Average estimated passenger trips per vehicle per year*: _____

* A passenger trip is each time a passenger boards a vehicle. For example, 5 passengers are taken to, and from, a destination. That would be five trips there and five trips back, a total of 10 passenger trips.

III. EXISTING FLEET

- a. Attach a fleet inventory for existing vehicles that you use, indicating for each vehicle: vehicle type, capacity, ADA capacity, model year, funding source (i.e. ODOT, etc.).
- b. Attach a replacement schedule for indicated vehicle(s).

IV. OTHER CAPITAL PURCHASE: Yes No (if no, skip to V) Provide a list of capital equipment you will purchase with funds from this program (other than vehicles) and describe how the equipment will be utilized. Capital purchases must be used for the scope of enhancing mobility for seniors and those with disabilities.

V. PROJECT SUMMARY

Please provide a detailed project description no more than two pages in length. This summary is **NOT** to be a description of your agency, but is intended to provide a description of the purpose and specifications of the project to be funded. While capital purchases are eligible under the program, their necessity should be identified and described as to how they support the goal or purpose of the project. A separate project summary should be included for each project type as listed on page 1 of this proposal.

VI. PROJECT OUTCOMES

Please provide both quantitative and qualitative information on each of the following measures based on your proposed project, as applicable:

1. services provided that impact availability of transportation services for seniors and/or individuals with disabilities;
2. additions/changes to infrastructure, technology, and/or vehicles that affect the availability of transportation services;
3. the estimated number of rides (measured by one-way trips) per year provided for seniors, individuals with disabilities, individuals at 150% or less of the poverty level, and/or other types of individuals as proposed in your project;
4. estimated number of jobs that can/will be accessed;
5. estimated number of rides (as measured by one-way trips) for work or work-related

purposes provided;

6. list all other measurable project outcomes that will be used to demonstrate the success of this proposal (points may be added in the scoring for additional measures of success);
7. Anticipated number of unduplicated individuals who will be served during the calendar year.
8. Note: a milestone report will be submitted to SARTA describing project progress and showing the number of clients served, trips per day, and funds expended is required quarterly. SARTA will provide this methodology as part of the program management Grantees failing to utilize resources to the extent proposed will be at risk of having assets reassigned.

VII. COORDINATION

1. How does this project expand mobility and/or the availability/expansion of transportation services?
2. Will this project reduce duplication of services and/or increase efficiency? If so, please explain.
3. What services, if any, will be coordinated by this project? (Check all that apply and list agencies that participate in the coordination)

Agency: _____; Agency: _____;

Agency: _____; Agency: _____;

4. Will this project charge clients fares or fees as part of the service? Describe what the fare and/or fee structure will be and how it will be collected.
5. Describe how clients are acquired and/or referred to your agency, what guidelines they must meet to qualify for the proposed service, and any application procedure (if applicable). Provide copies of forms used/to be used.
6. Will your agency seek funds from other sources for this project and/or to continue this project once this funding has expired? Will these funds be from another federally funded agency? If so, include contract, agreement, and/or authorization. Describe how you plan to continue this project and how it will be funded and/or other agencies approached to assist with the proposed project.
7. Provide a list of all agencies participating in the project, describe their role(s) in the

project, and provide letters of support from agencies for this project.

VIII. ADMINISTRATIVE AND FISCAL CAPACITY

1. Describe your agency's ability to provide for the financial and program management needs of this project.
2. Please provide a copy of your most recent audit or financial statement.
3. Provide documentation if local financial match will be from another federally funded program. Note: Matches from another federal source may not be eligible.
4. Provide proof of available local financial match source.

IX. MARKETING AND OUTREACH

Describe how the project will be marketed to serve the target population. Include marketing materials your project has developed or proposes to use in this effort. Attach a copy of your current marketing plan for your project.

X. CAPITAL ASSET UTILIZATION

Capital purchases must be justified and be in support of an existing or planned operating project benefiting seniors and individuals with disabilities. Capital purchase procurement will be arranged by the Awardee with SARTA's assistance, as part of the project management plan to ensure that projects meet Federal requirements. SARTA will be the Lien holder for any vehicles purchased until the vehicle reaches its "Useful life" by FTA guidelines. Grantees vehicle(s) purchased under this program will be monitored and inspected according to the Awardees Maintenance Plan to ensure that the proposed utilization of resources occurs. Grantees failing to utilize resources to the extent proposed will be at risk of having assets reassigned.
