The Year to Date ridership reflects a comparison of the prior year to the current years ridership to date. All of the percentages listed above are capped at 100%.

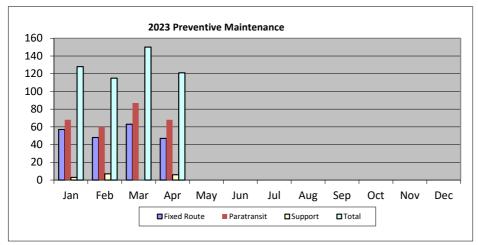

STARK AREA REGIONAL TRANSIT AUTHORITY MAINTENANCE DEPARTMENT April 2023

Submitted by: Mark Finnicum

- 1. There was a total of 121 Preventive Maintenance Inspections
 - 47 Fixed Route Buses
 - 68 Paratransit Buses
 - 06 Support Vehicle
- 2. There was a total of 115 Wheelchair Inspections
- 3. There was a total of 22 Heat & Air Conditioning Inspections
- 4. There was a total of 42 Farebox Inspections
- 5. There was a total of 08 Front End Alignments
- 6. There was a total of 106 Bus Exchanges
- 7. There was a total of 09 CNG Recertification Inspections
- 8. There was a total of 41 Avail System Inspections
- 9. There was a total of 16 Bi-Monthly Camera Inspections
- 10. There was a total of 06 Road Calls
 - 03 Fixed Route Buses 03 Towed
 - 00 Non-Revenue Vehicle 00 Towed
 - 03 Paratransit Buses 03 Towed
- 11. There was a total of 01 Warranty Repair
- 12. There were 00 job related injuries reported.

Development Special Projects Clayton Popik, Director

Department of Development & Special Projects May 9, 2023 Board Report for Meeting – May 24, 2023

Massillon Transit Center

The new Massillon Transit Center is moving along on schedule. March and April saw much progress on the site. Most of the storm water system has been put in place. Crews made sanitary sewer line connections at the street and electric, water, and gas will be completed in the coming weeks. The foundation work is finished, and backfilling was performed in mid-April. In May, more masonry work will be completed as the building begins to take shape. Below is an aerial view provided by our construction management firm, Omnipro Services LLC.

Gateway Site

Clean Energy is working through their final punch list. They have completed the patch work on the parking lot which opened at the end of April. The new compressors were commissioned, and Clean Energy has been onsite troubleshooting a fueling issue that was discovered when more than two vehicles are being filled at once. They will be working on a solution to this problem in the coming weeks. The final plans to correct this error had not been submitted to SARTA as of this writing.

The new administration building continues to remain on schedule. It was decided that two upgrades will be completed for the project. The first was electrical upgrades to the existing building which will help bring the new building online without the use of "band-aid" equipment. In the electrical capacity study completed in 2022, it was decided that the current switchgear was out of date and unsupported. Rather than purchase additional equipment to make the new building work with the current switchgear, it was decided that the switchgear should be upgraded saving SARTA from purchasing equipment that would only be used for a short period of time. The second change to the building was the upgrading of all exterior glass and entryways to ballistics level

glazing that would help improve the safety and security of all employees who would be working out of the new building.

HVAC Repairs and Upgrades

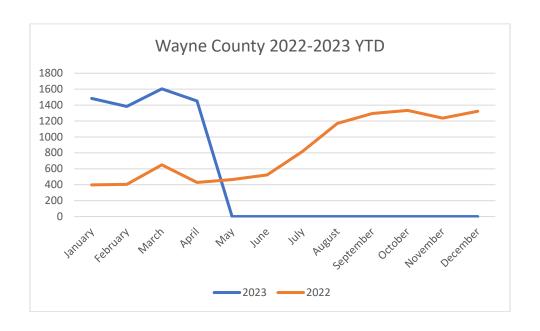

Standard Plumbing and Heating are working on their punch list items for the equipment that was replaced inside the building during March and April. Air balancing was done at the end of April. We are still not expecting to have the new rooftop unit onsite until October due to lead times with the manufacturer, Carrier. Once this unit is in place, the HVAC upgrades for the current administration building will be complete.

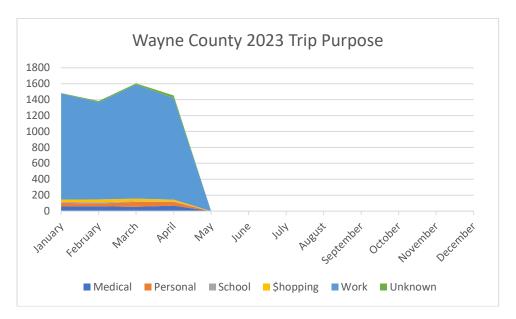

Wayne County Transit (WCT)

We provided a total of 1,604 trips in March and 1,452 in April transporting 127 individual riders in 2023 so far. Work trips (89%) are still the number one reason people are riding with WCT with medical (4%) being the number two reason. The charts below illustrate the WCT ridership trends.

We recently entered into an agreement with Aultman Orville to provide medical based trips to and from offsite therapies at various locations within Wayne and Stark counties as well as discharges from the hospital.

Streetcar

We have applied for funds through SCATS to help complete a transportation study around the Hall of Fame. The announcement will not have been made as of this writing but it is anticipated to come at the May SCATS meeting on the $22^{\rm nd}$. This study will help us better understand the transportation needs of the area in the immediate vicinity of the Hall of Fame and Hall of Fame Village.

myAvail 6.3 Upgrade to Version 8.3 with ETMS Project

Project Description and Scope: SARTA's Computer Aided Dispatch / Automatic Vehicle Location system by Avail Technologies is being upgraded to the newest version. The current version, version 6.3.8.9 is outdated and is using the old platform that Avail will be decommissioning. SARTA was utilizing the older platform because the newer versions of myAvail required the use of a fixed route scheduling, which SARTA just recently acquired.

The new version of myAvail 8.3 is an ETMS – Enterprise Transit Management System. This allows the system to support all aspects of SARTA—from buses and dispatch to finance and administration. As well as, offers information in one place for ease of analysis and reporting.

Project Approval: Estimated Project Cost: Est. 3 Future Yrs. Operational Cost:	Dec 2022 \$20,000	Project Manager: (Est. planning, execution, cla	Craig Smith ose-out)
Execution Project Cost: Execution Start: Funding Source for Project Cost	\$17,500 12/2/2022	Execution Cost to Date: Execution End: Vendor(s)	\$17,500 5/25/2023
Federal award Local match	80% 20%	Avail (\$17,500)	

Project Status: SARTA began planning this project after purchasing its fixed route scheduling package. It would take a collaboration between the vendor of the fixed route scheduling software and Avail Technologies to be successful. The new myAvail project is moving along quickly and should be finished by May 2023.

SARTA Revenue Fleet Farebox Replacement & Upgrade Project

Project Description and Scope: SARTA is currently using an older GFI fare collection system which has reached the end of its useful life. SARTA relies heavily on this system for not only fare collection, but also as the primary method of reporting ridership and transaction data. The main objective of this project is to completely replace the current system with a reliable, cash-processing fare collection system.

The current fare payment and collection system utilized by SARTA is built around the Genfare Odyssey farebox system and Ticket Reading and Issuing Machine (TRiM) units that issue and read a variety of magnetic barcode fares and transfers, as well as, accepts cash and coin. The current system is 14 years old and will need to be replaced in the near future. SARTA is exploring opportunities to not only replace the existing system, but to also expand options for making payments by means other than cash.

Project Approval: Estimated Project Cost: Est. 3 Future Yrs. Operational Cost:	February 2019 \$2,204,285 TBD		ger: execution, close	Craig Smith -out)
Execution Project Cost: Execution Start: Funding Source for Project Cost	\$2,204,285 7/18/2019	Execution Cos Execution End Vendor(s)		\$1,562,215.92 2/1/2023
Federal award • FY18 OTPPP Local match • Dedicated sales tax rev	80% \$1,763,428 20% \$ 440,857	Genfare IBI Group	(\$1,562,215.92) (\$66,568.91)	

Project Status: This SARTA Revenue Fleet Farebox Replacement project is composed of multiple phases.

<u>Phase 1:</u> consisted of replacing the Odyssey fareboxes with the new Fast Fare fareboxes. Along with the fareboxes all associated production garage computer equipment [probe, test unit, network manager, and fare collection vault] was also replaced. After an initial, successful pilot of twelve (12) buses, the remaining buses were installed with the new Fast Fare fareboxes and Phase 1 was completed on May 30, 2020.

<u>Phase 2:</u> consists of setting up the ticket vending machine (TVM). The TVM will be located at the Cornerstone Transit Center. The TVM will be configured and setup to sell and reload the new SARTA fare media. When the Ticket Vending Machine (TVM) goes into production, Phase 2 will be complete.

<u>Phase 3</u>: includes Smart Card branding, configuration, setup and implementation of Administrative Point-of-Sale (APOS) / Retail-Point-of-Sale (RPOS) equipment. The APOS is a touch screen computer with built-in receipt printer that will simplify SARTA customer support representative's task of selling or encoding smart cards at SARTA transit centers. SARTA APOS also includes a smart card printer and camera that will allow the rider to have their picture on their smart card. RPOS is a terminal in which customers may make purchases or add value to their existing smart card at a retail location that SARTA partners with, such as grocery stores or local banks. Phase 3 also, includes establishing Genfare Link and completing testing. Phase 3 will end when Genfare Link goes live with new configuration that will be decided upon given SARTA's model and is accepted by SARTA.

SARTA Revenue Fleet Farebox Replacement & Upgrade Project (cont'd)

SARTA has moved from User Acceptance Testing (UAT) into production. We have received all of the SCORE Cards and are awaiting the arrival of the Limited Use Cards that are on back order due to supply chain issues. The card readers on the on board fareboxes has been activated and SARTA buses are taking the SCORE cards. SCORE Cards launched publicly, Wednesday, July 13th.

Although, there are various intricate issues that are being refined with regards to financial reporting and the Retail Point of Sale (RPOS) devices which will allow SARTA to partner with an approved company to sell SARTA SCORE Cards at their locations. As for now, the SCORE Cards are now available and working.

SARTA has received its second shipment of Limited Use Cards.

Installation of JRV Validators for EZFare

Project Description and Scope: SARTA will begin outfitting their revenue fleet with JRV validators that will authenticate SARTA riders who use the EZFare app for bus fare. Currently, riders show their phone to drivers for visual validation in order to board the bus. This process is tedious and can lead to riders boarding with 'faked' fare, such as screen shot image or a screen recording of an old EZFare QR code.

After the JRV validators are installed, the rider will place their smartphone up to the validator's bar code scanner and it will authenticate the rider's fare and announce with a loud audio beep and a green check mark for OK, or a loud buzz and red X for Not OK. The JRV Validator will only allow those fares that are current and valid to work, thus alleviating the risk of any 'faked' or phony EZFare QR Codes.

Project Approval: Estimated Project Cost: Est. 3 Future Yrs. Operational Cost:	June 14, 2021 \$165,000.00	Project Manager: (Est. planning, execution, clos	Craig Smith se-out)
Execution Project Cost: Execution Start:	\$165,000.00 1/14/2022	Execution Cost to Date: Execution End:	\$141,369.00 04/02/2022
Funding Source for Project Cost		Vendor(s)	
Federal award	100%	Masabi	\$137,000.00
Local match	0%	Morrison Custom Welding	\$4,369.00

Project Status: After completing the Remote Site Survey, SARTA received the JRV Validators from Masabi. The installation of the production Masabi JRV has begun and to date we have sixty-seven (67) JRVs installed on buses in the SARTA fleet. We have a total of one hundred (100) JRVs to be installed. SARTA's service technicians are doing a great job with the installation. The goal is to be completed by March 2023.

Trapeze FX / Blockbuster Fixed Route Scheduling Software

Project Description and Scope: SARTA has 33 fixed routes and until this purchase, SARTA has been doing its blocking, runcutting and trip schedules manually. Which allowed for a variety of issues, mainly human error. With the purchase of this powerful platform called Trapeze FX/Blockbuster, SARTA can begin addressing all of its scheduling requirements and making many of its staffs job much easier and more accurate.

Trapeze FX/Blockbuster is a fixed route scheduling software that allows the creation of route and trip schedules. It also optimizes operator assignments and will create the most effective blocks and runcuts possible. This allows SARTA to make the best scheduling decisions by using reporting and analytics from this software.

Project Approval: Estimated Project Cost: Est. 3 Future Yrs. Operational Cost:	Oct 24, 2022 \$183,000	Project Manager: (Est. planning, execution, class)	Craig Smith ose-out)
Execution Project Cost: Execution Start:	\$183,000 10/24/2022	Execution Cost to Date: Execution End:	\$ 183,000 2/27/2023
<u>Funding Source for Project Cost</u> Federal award	80%	<u>Vendor(s)</u> Trapeze Group, Inc.	
Local match	20%		

Project Status: SARTA has completed its kickoff meeting with Trapeze Group in Oct. 2022. Since then we have installed the software, test, had training and begun using the Trapeze FX/Blockbuster product. May 2023 will be the first bid that this software was used to create it.

Trapeze PASS Version 18 Upgrade Project

Project Description and Scope: SARTA utilizes the software package Trapeze PASS for its paratransit and demand response scheduling. This software is critical for many of SARTA operations such as, client management, ride scheduling and efficiency. SARTA has used this software to minimize operating costs and providing excellent, responsive service. It is also the platform that allows SARTA to provide online trip booking, real-time scheduling and service dispatching.

Currently, SARTA is uses Trapeze PASS version 14. It is time to upgrade to version 18 to take advantage of many of the new features that are available with this version. There are also other packages that SARTA has through Trapeze that will benefit from this upgrade.

- o -IVR: provides automatic previous day reminder calls, as well as, automatic imminent arrival calls to clients to inform them of when their bus will is on the way. Also, allows clients to book trips, confirm or cancel trips over the telephone. COMPLETE 11/2/2021
- -WEB: allows clients to book trips, confirm or cancel trips all online using a smart phone tablet or computer. SARTA is upgrading to the new G3 platform. COMPLETE 11/2/2021
- o **-SUS**: keeps track of no shows, late cancels and cancel-at-the-door in order to assign proper suspension if necessary.
- -MON: allows SARTA dispatch to send manifest data, such as client name, pickup/drop off information, time, etc... to the on-board mobile data terminal.
- o -APPS: This is a brand new module that SARTA is piloting for a Microtransit evaluation.

Project Approval: Estimated Project Cost: Est. 3 Future Yrs. Operational Cost:	9/25/2019 \$5,000	Project Manager: (Est. planning, execution, cla	Craig Smith ose-out)
Execution Project Cost: Execution Start:	\$0.00 10/1/2019	Execution Cost to Date: Execution End:	\$0.00 TBD
Funding Source for Project Cost Federal award Local match	80% 20%	<u>Vendor(s)</u> Trapeze Group – Software	vendor

Project Status: This project is has begun and all needed servers and equipment is in place. SARTA IT has been working with Trapeze Group for the past several months to complete the upgrade of several Trapeze modules that were due. SARTA IT has been working with Trapeze by upgrading the map to incorporate more counties to accommodate SARTA's growing service area. Currently, we have the new map in our test environment and are testing the map for accuracy and functionality. The upgraded map includes Cuyahoga, Summit, Stark, and Wayne counties.

Belden Village Passenger Information Sign Upgrade Project

Project Description and Scope: SARTA's Belden Village Transit Center has had its current passenger information since the building was built back in 2012. As one of SARTA's popular transit hubs it was necessary for the signs to be upgraded to be able to give passengers even more information. SARTA chose to purchase MPTV EX37sw from Message Point Media. These displays are the next generation and a powerful content management system that integrate with a wide variety of different software systems and web services.

Project Approval: Estimated Project Cost: Est. 3 Future Yrs. Operational Cost:	10/25/2021 \$80,000	Project Manager: (Est. planning, execution, cla	Craig Smith ose-out)
Execution Project Cost: Execution Start:	\$80,000 01/21/2022	Execution Cost to Date: Execution End:	\$80,000 5/25/2023
Funding Source for Project Cost Federal award Local match	80% 20%	Vendor(s) Message Point Media Avail Technologies	

Project Status: This project is has begun, all six (6) signs were received by SARTA. The signs have been installed by the local sign company and SARTA IT will be provisioning the signs the week of May 24th. SARTA's Marketing department will provide the content for the screens, along with the route information.

General Human Resources' Functions

- The first meeting for our Workplace Wellness Weight Loss Support program is scheduled for 5/25/23. Select team members will meet weekly for one hour to discuss weight loss goals and wellness lifestyles. Both girth and body weight will be addressed.
- Six additional team members have enrolled in the YMCA payroll deduction plan.
- 2023 Uniform Refresh nearly complete.
- First Quarter fitness challenge results:
 - o 31 Team members met the 500,000 step activity challenge. We had 32 team members meet this challenge the previous quarter.
 - o 13 Team members met the 3% weight loss challenge. We had 6 team members meet this challenge the previous quarter.
- Policies and Procedures are currently being updated.
- Research on internships and training programs are currently being conducted for the Maintenance Technician position.

Training

- Three new CDL Coach Operators are currently in training.
 - o 2 of the new CDL drivers took their CDL Test on May 18, 2023 and passed.
- Three Non-CDL Coach Operators have begun training and are set to begin on the Extra Board June 5, 2023.
- We have 10 new CDL Coach Operators set to begin May 30, 2023.
- Train the Trainer training scheduled for the first week of July 2023.

STARK COUNTY

NEORide pursues out-of-county shuttle service for people with disabilities

Robert Wang The Repository

Published 5:55 a.m. ET Feb. 17, 2023

Key Points

NEORide wants to offer people with disabilities rides outside their home counties.

Six transit agencies in Ohio -- including the Stark Area Regional Transit Authority -- are collaborating to launch the project, called EZConnect.

"We know the demand is there. We just can't fulfill it," SARTA CEO Kirt Conrad said.

Natalie Smallwood has been unable to drive the past 10 years since she had a stroke in Florida and later moved back to Stark County.

So to get around to medical appointments, shopping trips and Bible study sessions, the 59year-old Canton woman has relied on the curb-to-curb ProLine paratransit service provided by her former employer, the Stark Area Regional Transit Authority. The cost for riders is \$2.25 per ride.

But when researchers invited her to take part in clinical trials in stroke research in Cuyahoga and Summit counties, she had to decline. ProLine, which serves passengers with disabilities, doesn't provide service outside of Stark County.

However, SARTA says a recent \$1.25 million federal grant will make out-of-county paratransit services possible by around 2026. The transit agency has joined a cooperative with transit agencies in other counties that says it's lined up more than \$6 million in grants to fund the development of a software platform that would pool resources so they can all provide regional service that crosses county lines.

For example, a woman with disabilities unable to drive who lives in Massillon might be able to get a paratransit shuttle ride to visit her mother in Wooster in Wayne County and her aunt in Lisbon in Columbiana County. Another passenger might be able to get a ride

from Plain Township in Stark County to a doctor's appointment in Akron in Summit County.

Smallwood, who said she still struggles with motor functions on the right side of her body, said out-of-county paratransit service would allow her to shop and dine outside Stark County.

"I would love something like that," she said, adding that she doesn't want to rely on her family to get around. "A lot of times I don't like to ask them because I want to be independent. ... That's what I like about ProLine, so I don't have to be dependent on family members."

NEORide receives \$1.25 million grant for project

NEORide, a cooperative made up of transit agencies including SARTA, recently announced that NEORide had gotten a \$1.25 million federal grant for its EZConnect project with the help of U.S. Sen. Sherrod Brown. Congress authorized the appropriation in its omnibus budget bill approved in late December.

The project involves deploying software to consolidate the reservations, scheduling and dispatching of shuttle drivers for at least six public transit agencies, including SARTA, for paratransit service. Riders could eventually book rides across county lines with one app.

The six initial transit agencies collaborating on launching EZConnect are SARTA, the Western Reserve Transit Authority in Mahoning County, Wayne-Medina Community Action, CAA of Columbiana County, Trumbull County Transit, the Southwest Ohio Regional Transit Authority in Hamilton County and the Butler County Regional Transit Authority. Transit officials say they hope more agencies like Summit County's Akron Metro RTA and Greater Cleveland Regional Transit Authority eventually join the cooperative.

SARTA CEO Kirt Conrad said that in the initial phase, riders would be limited to transit agencies participating in EZConnect that are in Northeast Ohio. But he suggested it could be possible later on to work out transfers to other transit agencies to allow for longer journeys.

Transit officials also plan to set up two call centers staffed by people who would accept calls requesting paratransit service throughout the area served by EZConnect. One center, staffed by 25 to 30 dispatchers, would take up the entire second floor of SARTA's Gateway

headquarters in Canton, said Conrad. The other center would be at the Southwest Ohio Regional Transit Authority in Cincinnati.

NEORide Director Katherine Conrad, who is married to Kirt Conrad, said transit agencies that have signed onto EZConnect have not yet decided how much it would charge riders with disabilities for rides across county lines, how it would staff the call centers and the funding mechanism. Katherine Conrad said it's possible there could be a regional pass with a fee.

NEORide is a cooperative that covers 23 transit agencies in five states: Ohio, Michigan, Kentucky, West Virginia and Arkansas. Three Northeast Ohio transit agencies, SARTA, Akron Metro and Portage Area Regional Transit Authority, founded NEORide in 2014 to collaborate and pool resources for regional transit technology projects.

"Ohioans needs to get to doctor's appointments, go to the grocery store, and get to work," Brown said. "This investment will help them do that. ... These federal funds will help NEORide and Ohio transit agencies provide better service for riders across Ohio."

Kirt Conrad: 'We know the demand is there. We just can't fulfill it.'

Kirt Conrad said the federal grant "goes a long way towards our goal for having intercounty connectivity for transportation purposes. This is something we've been working on for a long time."

He said a SARTA paratransit rider could call a phone number or use a smartphone app to book a ride from Canton to Akron General Medical Center in Akron. The EZConnect software could assign a SARTA bus to take the passenger up to Akron, and arrange for an Akron Metro RTA shuttle to take the rider back to Canton, assuming Akron Metro has joined EZConnect.

The SARTA chief said on the occasional out-of-county trips SARTA has done as part of a contract for Stark County Department of Jobs and Family Services more than five years ago, the vehicle often had to wait for hours before the rider was ready to return to Stark County. During that time, it couldn't provide other rides in Stark County.

EZConnect offers the promise of a more efficient use of all member transit agency vehicles and staff short of an outright consolidation of agencies.

,Kirt Conrad compared it to how Uber matches vehicles and riders.

Currently, SARTA's ProLine services uses software so riders can book service in 30-minute windows but no less than one business day in advance. Conrad envisions a day when riders with disabilities will be able to use an app like with Uber or Lyft to book rides minutes before the ride but without the higher costs.

The SARTA executive director said each month his agency delivers about 5,000 to 6,000 fixed-route bus trips and roughly 13,000 paratransit shuttle trips.

He said customers with disabilities in Stark County are often contacting SARTA and requesting trips out of the county, especially for medical appointments in Summit and Cuyahoga counties. One even asked for a ride to Cincinnati.

"We know the demand is there. We just can't fulfill it," he said.

Kerstin Sjoberg, the executive director of Disability Rights Ohio said, "When you rely on (paratransit services) for visiting family, going to medical appointments, having that system that will break down that geographical barrier ... could make a very meaningful and positive impact on access to services and just being able to live your life. ... We generally don't limit our lives just to the county we live in. So people with disabilities shouldn't have to do that either."

Denise Dessecker, the president of the Philomatheon Society of the Blind in Canton, said out-of-county paratransit service would allow people with visual impairments to travel to the Cleveland Sight Center in Cleveland to try using the sight-adaptive equipment there.

"Sometimes they just don't do it (go to the Cleveland Sight Center) because they don't have a way to get there," she said.

Matt Reed, a spokesman for Direction Home Akron Canton Area Agency on Aging and Disabilities in Green, said many senior clients who are no longer able to drive often ask about transportation options. But options are often limited, especially if seniors want to travel across county lines.

"I'm really intrigued by this concept," he said about EZConnect. "A lot of times we see a lot of older adults who live in one county and their preferred medical provider is in another county."

NEORides' EZConnect nabs other federal grants

Brown's office and Katherine Conrad said NEORides' EZConnect project has also gotten a \$1.49 million federal Advanced Transportation and Congestion Management Technologies Development grant; a \$338,600 Enhanced Mobility Innovation grant from the U.S. Department of Transportation; and a grant from the Ohio Department of Transportation.

"We're definitely in a place where we can fund the initial development as well as operations of the first several years," she said, adding that NEORide has a software development contract with Via Transportation that could cost about \$2 million. "I think we have most of the pieces in place and now we have the funding."

Katherine Conrad: Rural counties need EZConnect

Katherine Conrad said that without an initiative like EZConnect, rural counties would not have the resources to provide extensive paratransit services or fixed-route bus services to their residents, much less transport people outside the county. She said in some counties, paratransit organizers still plan all the trips with pen and paper and don't even have dispatchers to contact drivers to re-route them.

Kirt Conrad said transit officials hope that savings from greater efficiency would eventually cover the long-term operating costs of EZConnect, which might even expand to fixed-route service to take more riders across county lines.

"The hope is once we transition to this, the efficiencies would be able to fund it," he said. "The biggest thing is just getting the initial platform built. Once you have that done, it's pretty scalable. It's just adding additional licenses and servers."

Ohio starts to make its mark on the hydrogen market

WOSU 89.7 NPR News | By Ann Thompson

Published February 21, 2023 at 6:29 AM EST

LISTEN - 4:04

Ann Thompson / WVXU

You could be seeing these along a "Transcontinental Hydrogen Highway" as hydrogen vehicles fuel up.

Of the estimated 54 public hydrogen fueling stations in the United States (some figures put the number over 100), most of them are in California and one is in Hawaii.

That's a problem even in California, where sometimes drivers have to wait in lines for 30 minutes to fuel. KABC anchor David Ono went to a fueling station in 2021 and he traveled to Japan to report on how Namie Town is using hydrogen.

Morning Educat

What are we doing in Ohio?

A Dayton company, Millennium Reign Energy (MRE), designs, manufactures and distributes hydrogen stations to fuel cars, heavy equipment, homes and more. It has plans to create a Transcontinental Hydrogen Highway.

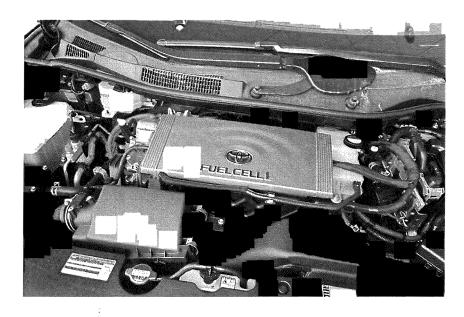

Initially, MRE would install 27 hydrogen stations from New York to Los Angeles. The timetable is unclear.

This would be green hydrogen made from renewable sources like solar and wind and different from the blue hydrogen Ohio, Kentucky and other states are talking about, which uses natural gas.

Ohio is starting to make its mark on the hydrogen market. Hyperion is opening a fuel cell research and manufacturing center in Columbus, and by 2024 Honda will produce a hydrogen fuel cell vehicle.

Cincinnatian Mark West is forming a group of hydrogen enthusiasts. He says it's the age-old chicken and egg problem. "We don't have fuel cell vehicles because we don't have hydrogen stations at which to fuel them. And nobody is really investing in putting in hydrogen fueling stations if there are no cars to show up and buy the hydrogen," he says.

Honda is already manufacturing the Clarity Fuel Cell vehicle. Hyundai makes the Nexo SUV and Toyota has the Mirai, all powered by hydrogen.

Canton has one of the largest fleets of hydrogen fuel cell-powered transit vehicles

More than 10 years ago, Stark Area Regional Transit Authority (SARTA) decided to start assembling a zero-emission fleet. Now it has one of the largest fleets in North America.

"We began by developing a transition plan to move from diesel, to diesel/electric, to CNG powered-vehicles," CEO Kirt Conrad said.

"When we started, HFCs weren't on our radar screen," he says. "We soon realized, however, that CNG was a waypoint on the path to our goal, not the ultimate destination. As we learned more and more about alternative fuels it became apparent that HFCs were the real long-term sustainability solution we were seeking."

The buses initially cost \$2 million each. Now they're down to \$1 million. Stark County used \$20 million in state and federal grants to pay for 15 hydrogen buses.

Conrad says he gets calls every week from municipalities looking to get hydrogen buses. He has talked to Cincinnati.

In January, the Department of Energy announced \$47 million in funding to accelerate hydrogen research and development of technology. One goal is reducing clean hydrogen from five dollars per kilogram to one dollar per kilogram within the next 10 years. One kilogram of hydrogen is about equal to one gallon of gas.

GE Aerospace has interest in hydrogen

GE Aerospace has applied for federal funds to build a hydrogen hub. In addition, the Cincinnati-based company is creating a new fuel delivery system so it can use hydrogen fuel in its engines.

Not everybody is singing the praises of hydrogen. Some point to the energy needed to power a green hydrogen fuel cell is three to four times that of an electric battery. And there are claims that hydrogen has 11 times the warming power of carbon dioxide over a 100-year timeframe.

What we know about Massillon's new SARTA transit center

Amy L. Knapp
The Independent

Published 5:31 a.m. ET March 7, 2023

Key Points

Work has begun on a new SARTA transit center in Massillon.

The new 5,565-square-foot transit center will be built on a 1.5-acre spot across from the Towne Plaza shopping center at 227 Tommy Henrich Drive NW.

A temporary shelter has been constructed for riders until the new transit center is ready at the end of the year.

MASSILLON – Work is underway on a new Stark Area Regional Transit Authority station.

Officials announced at the end of the year plans to abandon the former Hampton Inn transit center, 41 Erie St. S, and build a temporary shelter at 227 Tommy Henrich Drive NW to accommodate riders until the new station is constructed at the same site.

Kirt Conrad, chief executive officer and executive director of SARTA, said the new station was needed for a number of reasons, the including Hampton Inn transit center could not accommodate some of the newer buses' height, the site was not visible for riders and it also posed safety concerns because of sight lines for drivers entering and exiting the facility.

"We just outgrew it," Conrad said. "It was hidden back behind and didn't have great exposure."

Bus service: SARTA gets \$2.39M federal zero-emissions grant to buy 2 new buses

Here are six things to know about the project.

1. The new transit center will be bigger

SARTA has plans to build a 5,565-square-foot transit center on a 1.5-acre spot across from the Towne Plaza shopping center. Conrad said the size of the facility has increased slightly from the original plans. The cost is set at around \$5.1 million, he said.

The conceptual design put the project at around \$4.25 million but increased construction costs and additional plans for the facility have bumped the price, Conrad said. Despite the increase, Conrad is pleased with the cost, adding that it is lower than the engineer's projected cost and they received multiple competitive bids for the project.

"We've been lucky," he said.

2. The transit center will feature park-and-ride lot and EV stations

The transit center will include a park-and-ride parking lot with about 20 spaces, as well as electric car charging stations. Conrad said both the parking lot and charging stations were added after they announced the project.

Officials opted to include the charging station after they saw the usage at the Belden Village transit center. Conrad said drivers use that charging station about 75 times each month.

3. What will the new station look like?

The new Massillon station will resemble SARTA's Belden Village station, Conrad said. The climate-controlled space includes public restrooms and will be equipped with customer service representatives to help riders.

4. When will the station open?

Crews have installed a storm sewer and retention pond on the site.

Grading is complete and foundation work is expected to continue this week. Conrad said the building should begin to take shape this summer and they expect to begin to use the building by the end of the year.

5. How many people use the Massillon transit center?

About 400 riders use the transit center each day, Conrad said. They travel to a variety of places, including many heading to work at Superior Meats and GoJo.

6. The transit center is easier to find

The new station is more visible. It can be seen from state Route 21. It also will provide better sight lines for drivers and a better-turning radius.

First phones, now tires: Goodyear's 'smart' tires make even a car's shoes intelligent

Updated: Apr. 07, 2023, 12:56 p.m. | Published: Apr. 06, 2023, 4:24 p.m.

Goodyear SightLine is a line a intelligent tires made to capture more data where the rubber meets the road. Courtesy of Goodyear

By Sean McDonnell, cleveland.com

CLEVELAND, Ohio — It isn't just cellphones or homes that are getting smarter. Tires are getting more intelligent, and with <u>electric vehicles and even autonomous vehicles</u> down the road, <u>Goodyear</u> says putting tech into tires is becoming more and more important.

"As connected vehicles are becoming more and more common, it makes sense that the key connection with the road also becomes smarter," said Erin Spring, senior director of material science at Goodyear.

The tires in question are from Goodyear SightLine, the Akron tire company's line of intelligent tires. Designed with fleets of vans, trucks and buses in mind, the tires are also being used on autonomous vehicles, better known as self-driving vehicles.

You may not think much about your tires. But they're the only part of the vehicle that touches the ground.

When the rubber meets the road, there's a lot of data tires can collect, Spring explained.

SightLine technology can measure the tire's air pressure, the amount of friction between the rubber and the road surface, the amount of tread that's left and the temperature of the air around the tire.

This is useful if you have, say, 50 trucks on the road and need to plan for tire maintenance. But for a self-driving car or truck, the tires are the only way to "see" the road.

Spring said many self-driving vehicles are tested on the West Coast in warm, dry areas. But what happens when that car needs to travel in Cleveland in mid-January?

That's what Goodyear and <u>Gatik</u>, a startup company focused self-driving trucks, researched during recent tests in Toronto.

"How are they going to operate in snowy conditions and wet conditions?" Spring said. Smart tires, like Goodyear's Sightline, could tell autonomous vehicles when roads are messy.

Sightline tires don't just talk to the vehicles. The data is also sent to a centralized location, like a dispatch center.

Spring said this gives companies more information about their vehicles in real time. Even something simple like tire pressure can make a difference on the bottom line — like fuel economy.

If your tires are about 10% under inflated, your fuel economy drops by 3%, Spring said. She said Goodyear has randomly sampled tire pressure in parking lots and found that 25% of vehicles had under inflated tires.

For SARTA, the Stark County Regional Transit Authority, the biggest benefit is being able to avoid unplanned delays, said Kirt Conrad, CEO of the transit agency.

When a bus has a "deflation event" and breaks down mid-route, it can be a huge hassle. Another bus is sent out. Riders have to wait. And a lane of a busy road is blocked until a tow truck can arrive.

All these things make a sudden issue with a bus's tires a problem; Conrad explained.

"If it's an unplanned event it's impacting a lot of people," Conrad said. "Imagine you go to the airport and the airplane is not there."

With Sightline, and the bus operator's input, Conrad said the dispatch center can notice tire issues early. When the bus finishes its current route, Conrad said the replacement bus can be waiting for the switch at the transit center.

It is much quicker and safer than having passengers change buses wherever the tires decide to fail, Conrad said.

Conrad said SARTA is using Sightline tires on 15 of its buses. Some are diesel and some are electric and powered by hydrogen fuel cells. SARTA has about 50 buses in total. He said this pilot will run into this summer.

Part of what SARTA is testing is how its Hydrogen-powered buses wear through tires. For a variety of reasons, like more torque and braking systems that recharge batteries — electric vehicles are tougher on tires.

Telemetry — a fancy word for when vehicles talk with computers — has been around for longer with engines. But tires are a relatively new thing, Conrad said.

Not much is changing for drivers, who can't even see the sensors inside of Goodyear's tires. But Spring said a lot of attention has been paid to tires in her 19-year career.

When she started, GM wasn't thinking about its electric vehicle line up. Vehicles weren't driving themselves. You definitely couldn't turn your car's heater on from your phone.

Spring said the changes have been surprising, but there's a lot of good things coming from vehicle's being more connected.

Resolution #	, 2023
--------------	--------

A Resolution To Dispose Of Obsolete Brake Lathes

Whereas, this resolution authorizes the Executive Director/CEO to dispose of obsolete and unusable Brake Lathes; and

Whereas, there are a total of two (2) obsolete or unusable Brake Lathes to be disposed of, including the following;

000730	99	700	6/1/1993	BRAKE LATHE, COMBINATION	STAR MACHINE	6,123.48000
15716	99	700	1/9/2004	BRAKE LATHE, DOUBLE SPINDL	TOOLS & TRAINING	44,608.30000

Now be it resolved by the Stark Area Regional Transit Authority Board of Trustees that the Executive Director/CEO has the authority to dispose of these Brake Lathes.

Date		
Board President

Resolution #, 2023
A Resolution To Authorize The Board President To Enter Into An Agreement To Provide Local Match To NEORide
WHEREAS, SARTA offered NEORide a Financial Support Letter to provide a Local Match for NEORide's grant application to the Ohio Department of Transportation FY22 DTP2 grant funds for the purpose of developing a regional call center, and
WHEREAS, the Board of Trustees authorizes the President of the Board to enter into an agreement to provide Local Match to NEORide in the amount of one hundred thirty-six housand dollars (\$136,000); and
WHEREAS, the cost being issued to NEORide companies is; NEORide in the amount of one hundred four thousand dollars (\$104,000) for reservation, scheduling, and dispatching, customer service tools, project implementation support, project management, rendor project management and training, and technology consulting and thirty-two housand dollars (\$32,000) for the in-kind match for implementation support and project management;
NOW THEREFORE BE IT RESOLVED by the Board of the Stark Area Regional Transit Authority that the Board President has the authority to enter into an agreement with the NEORide and the amounts stated.
Date
Board President

Secretary-Treasurer

Agreement to Provide Local Match to NEORide

This Agreement is entered into effective as of May __, 2023, by and between the Stark Area Regional Transit Authority ("SARTA") and NEORide, collectively known as the "Parties."

WHEREAS, SARTA provided NEORide a Financial Support Letter dated April 30, 2021, to provide a local match to NEORide for NEORide's application for the Ohio Department of Transportation ("ODOT) OTP2 grant funding to develop the EZConnect One-Call Center; and

WHEREAS, NEORide was awarded the grant funding.

WITNESSETH

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

- 1. Period of Performance End Date shall be December 31, 2023.
- 2. Total amount of local match SARTA will provide is \$136,000. Of which \$104,000 will represent costs for reservation, scheduling, and dispatching, customer service tools, implementation support for project management, vendor project management, and a technology consultant. \$32,000 will represent in-kind expenses for implementation support and project management.

This Agreement may be executed in multiple counterparts, which, taken together, be considered one whole and complete document. This Agreement may be executed and sent via scanned copy to either party and be fully enforceable as if an original was transmitted.
